Askoll OEM

WHY ASKOLL WANTS TO DO IT

- It is our DNA
- We have a complete know-how
- We have the ability to follow specific customer needs

WHY YOU SHOULD CHOOSE ASKOLL

- Focus on quality
- Habit to work on volumes
- Knowledge on e-vehicles market

Askoll EVA

OEM Approach

Develop an **OEM offer** made of engine, battery pack, display and connectivity.

Develop and offer that transcend from the traditional markets segments.

We let **our** customers name **their** products.

A **flexible offer** that allows to combine the main kit components in the most efficient way.

Askoll
I am electric

100%

MADE IN ITALY

All Askoll vehicles born **100%** electric

All technical and core component (battery, control unit, power train and electrical engine) are made by Askoll

We are our first customers: all automation needed to produce and testing the vehicles is designed e produced by Askoll Group

We make solutions, in Italy
