TRACTION

Motor	Askoll brushless electric motor with external rotor integrated into the rear hub
Power	250 W nominal rating
Max speed	25 km/h
Max torque	40 Nm
Assistance levels	4 + unassisted mode
Special programs	1) Walk-assistant mode 2) Hill start support

REMOVABLE BATTERY

Type	Lithium-ion
Capacity	400 Wh
Voltage - Amps	36 V - 11,6 Ah
Weight	2,6 kg
Charging time	6 hours x 100% (3 ½ hours at 80%)
Range (up to)	90 km

GENERAL INFORMATION

Type	Trekking
Material	Aluminium
Fork type	Shock-absorbing with 63 mm travel With Lockout (stroke locking)
Handlebar connection	Adjustable
Seatpost tube	Fixed
Configurations	Man
Size	L 28"

GEAR SHIFT

Model	Shimano - 7 speeds
-------	--------------------

BRAKES

Front	DISK-BRAKE mechanical
Rear	V-BRAKE - integrated into the frame

WHEELS

Wheels	28" x 1 5/8 aluminium double wall
Tyres	40-700E.T.R.T.O. with reflectors
Tyre pressure	3,5-6 Bar (or value on the shoulder of the tyres)

LIGHTING

Front	LED
Rear	LED

DIMENSIONS

Length	1.810 mm
Width handlebar	700 mm
Total weight	23 kg
Max. load	120 kg (rider + additional load)
