The new generation of electric scooters has arrived.

NGS succeeds in combining the new concept of mobility with the design of Italian motorcycling tradition. Discover it now.

NGS

You are always connected

USB charger for smartphone

Recharge it wherever you want

Designed and made in Italy

Askoll

I am electric

NGS Line: electric heart, all-Italian looks.

Its design reminds you of the beauty of the scooter.

Its aesthetics, created in collaboration with Italdesign, is openly scooter-like. Anyway, why lose history, when you can have the future too?

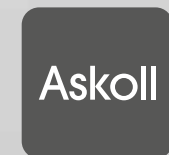

Two hearts, two friends, two of whomever you want.

With its friendly and elegant line, NGS invites you to share your every journey. On its two-seater saddle you can travel comfortably and have more fun.

Digital makes everything so easy.

Digital display with connectivity module, Bluetooth communication with dedicated App*: you are one step ahead and that step is electric.

*Available for NGS2 and NGS3 models.

Lithium-ion battery: super saving, maximum freedom.

The battery charges from 0% to 100% in about 3 hours. You don't have to wait until the battery has completely run down to connect it to the power source. You can charge it even daily, from any power outlet or directly from the scooter: it will always give top performance.

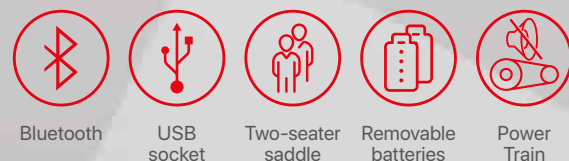

Three models, one electric life.

NGS2

Design addicted: this is the life.

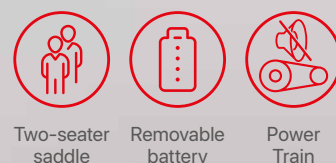

NGS2 has a top speed of 45 km/h: just enough to give you all the freedom you want... Travel on all urban routes with a range up to 71 km. Where will we meet tonight?

NGS1

Surprisingly new.

With a top speed of 45 km/h, NGS1 is suitable for all urban routes and has a range up to 40 km. Home, work, the gym: every trip will be pleasant and safe.

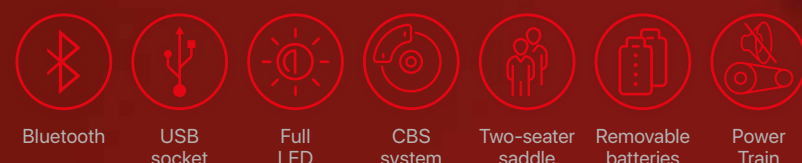

NGS3

Everyone dreams about it, you ride it.

With its openly scooter-like aesthetic, NGS3 radically changes the world of electric scooters.

Full LED lighting. Double disc brake with CBS braking system. Powerful motor with top speed 66 km/h. Elegant. Modern. Practical. And, of course, with an electric heart.

Made in Askoll, Made in Italy.

Technology, automation, research and development, testing: everything is done in-house.

NGS lets you save a lot of money.

Travelling expenses.

You only need 11€ to travel for a year with NGS.*

Maintenance costs.

Only 45€ a year.

Recharging expenses.

Just 30 cents for a complete charge.**

* Presuming 10 km a day, 5 days a week, for 52 weeks

** Considering the average nocturnal rate of 0.15 €/kWh

The technology is with you.

Equipped with a new Power Train with even quieter-running transmission, built-in luggage rack and all Askoll safety, NGS combines memorable design with advanced technology.

NGS means zero pollution.

Discover all about your NGS.
