

The easiest way to get around the city. 

15
KM

Range

Designed and produced in Italy

18
KM/H

Maximum speed

TRACTION

Mode of operation	Hybrid: muscular + pedal-assisted by an optional battery
Motor	Askoll brushless electric motor in the rear hub
Power	150 W
Max speed	Up to 18 Km/h
Coppia max	16 Nm

POWERBANK BATTERY

Type	Lithium-ion
Capacity	85 Wh
Voltage - Amps	14,4 V - 5.8 Ah
Weight	530 gr
Dimensions	71 x 161 x 34 mm
Charging time	3,5 h (from 0 to 100%)
Range (up to)	15 Km
Charging system	USB-C
Output	Porta universale USB-C
Optional charger	FAST CHARGER 25W with USB-C / USB-C cable

GENERAL INFORMATION

Material	Steel
Fork type	Rigid
Handlebar connection	Fixed
Seatpost tube	Antitheft, adjustable in height
Saddle	Black, in high-strength polyurethane
Front and rear lighting	LED

WHEELS

Dimensions	24" x 1,75 - ETRTO 22 / 47 - 507
Tyres	Puncture-resistant tires Tyre pressure 2,5 - 4,5 Bar
Rims	Steel
Front and rear brakes	V-BRAKE

DIMENSIONS

Length	1.660 mm
Width handlebar	600 mm
Height	1.070 mm
Weight	21 kg

EQUIPMENT

Basket	Frontal, material: steel, max load: 5 kg
Advertising panels	Material: ABS+PMMA Black, for outdoor use
Decal	Su pannelli pubblicitari: Logo Askoll + personalizzazione cliente
Telemetry system	Optional integrated telemetry card with CAN-BUS communication protocol. Optional telemetry and connectivity services

AVAILABLE COLOURS

Customisations	Colours and graphics can be customised for specific requirement
----------------	---

The easiest way to get around the city. **eB** sharing

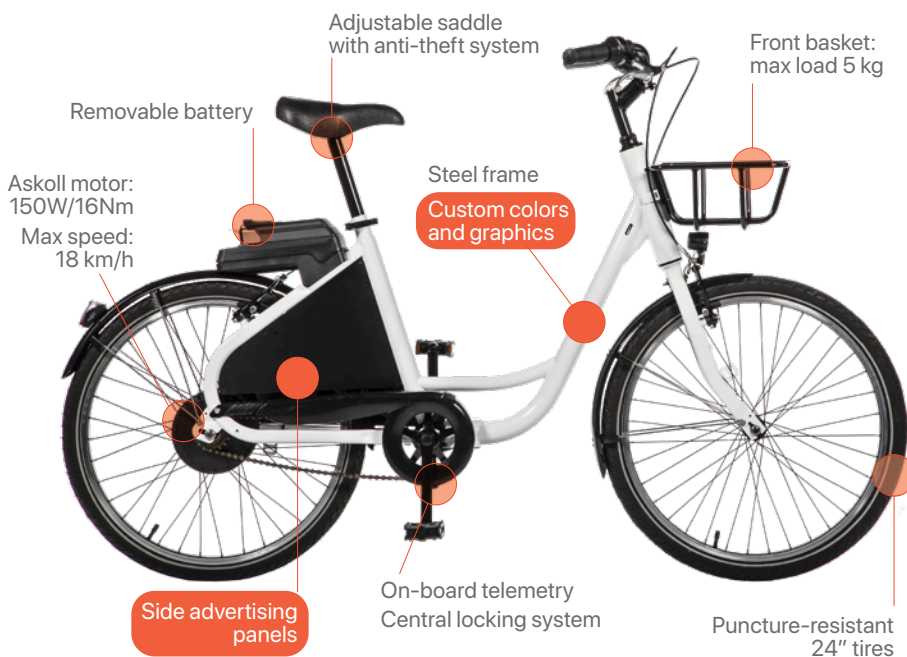

The stall is reliable and easy to manage, and it houses a modular number of e-bikes

- It requires no installation, no set up either electrical connection.
- It includes a space that can be used for advertising.
- Thanks to the stalls, urban décor improves: tidy e-bikes, zero chaos in the city.

Possibility of integrating an App dedicated to the e-bike public service:

- Download the app
- Sign up for the service
- Find the nearest stall
- Book your bike

The side panels for advertising and the customizable frame make the fleet immediately recognizable

Strong & Reliable

Made in Italy, Askoll vehicles are robust and reliable, with a design conceived for city mobility

Citizen & Smart

Fast integration and compatibility with leading telemetry solutions thanks to the CAN BUS protocol

Competitive & ReadyToGo

Low operating costs thanks to the easy maintenance e all'utilizzo del sistema Powerbank in dotazione all'utilizzatore

USB to recharge small devices

Capacity 22.400 mAh

LED Charger level LED

Input

Type C USB with fast charging of max 3A

IN/OUT

Indoor battery charger

Output

Type C USB with fast charging of max 3A
