

PRESS RELEASE

ASKOLL EVA: FIRST ORDER OF DRIVE UNITS AND SMART CONTROL CENTER FOR E-MOUNTAIN BIKES FOR THE NILOX BRAND

Esprinet has ordered Askoll ULTRA C90A motors and Sigma Smart Control Centers for the new K2 MID e-mountain bike model by Nilox, a brand of the Esprinet Group.

Dueville (VI), 23 January 2023 – Askoll EVA S.p.A., a leading company in the sustainable mobility market that develops, manufactures and markets e-bikes and e-scooters, as well as kits and components in the area of electric motors and batteries, announces having received a new order from Esprinet SpA, a leading company in the marketing of bicycles and e-bikes, for Askoll ULTRA C90A motors and Sigma Smart Control Centers which will be mounted on the new K2 MID e-mountain bike model by Nilox, a brand of the Esprinet Group, one of the best known and most appreciated in the outdoor technology market.

The delivery is expected within the first half of 2023, for a total value of approximately 245,000 euros.

Askoll ULTRA C90A is a power unit designed exclusively for e-mountain bikes and is an optimal synthesis of market demands: lightness, compactness and performance. In terms of performance, the Askoll ULTRA C90A motor has a nominal power of 250 W (the maximum is around 750 W) and delivers a torque of 90 Nm optimized between 60 and 80 pedal strokes per minute. The special Boost mode, which offers a maximum torque of 110 Nm, allows you to overcome even the roughest sections of the paths easily. Askoll ULTRA C90A technical solutions are patented.

Sigma Smart Control Center is a technological set developed in partnership with Sigma that connects directly to the motor and battery to provide the cyclist with data relating to the e-bike and output (assistance level, battery status, kilometres travelled, speed, calories burned) and to share them on social networks. The Bluetooth and ANT+ interface on the Remote 500 smart controller allows you to connect to your smartphone and always have everything at your fingertips.

Gian Franco Nanni, CEO of Askoll EVA, said: *"We are very proud of this new order which we consider strategic as it allows us to expand our range of action in the e-bike sector. We are delighted to have agreed with one of the best-known companies in the sector, such as Nilox, much appreciated by high-performance e-bike enthusiasts, but not only. Therefore, we think we can increasingly play a leading role in sustainable mobility in general, and this piece represents a further step towards completing our range of solutions"*.
